

FAAKHIR UL HASSAN

fzahid.bs22seecs@seecs.edu.pk | 03015010607

Education

NUST, Islamabad

Sept 2022 - Apr 2026

Bachelor of Computer Science

CGPA: 3.5

Skills

Languages: C/C++, Python, Java, Javascript, HTML, CSS

Databases: PSQL, SQLite, MongoDB

Frameworks: Django, ExpressJS, NodeJS, ReactJS, ThreeJS, bootstrap

Tools: Git, GitHub, Postman, Asana

Recent Projects

Portfolio

A front-end web app built using ReactJS. The site showcases my work, skills, and achievements and website is live at <https://faakhir-portfolio.vercel.app/>

JobMaps

In addition, I have also developed JobMaps, a Django web application that uses PostgreSQL to perform web scrapping through several job placement websites such as LinkedIn and Glassdoor. The platform pins the job postings on maps to help users find software engineering jobs nearest to them. Web app live at <https://faakir.pythonanywhere.com>

TrendQuest

Another project that I have developed is trendQuest, an ecommerce web app built using the MERN stack. It is a fully functional platform that supports payment gateways by Braintree and user authentication handling with MongoDB.

LuminaSort

LuminaSort is a captivating React.js web app that brings sorting algorithms to life through stunning visualizations. Explore the intricacies of quicksort, mergesort, bubblesort, and insertionsort in an engaging and interactive manner. Web app live at <https://lumina-sort.vercel.app/>

Professional Experience

GDSC

Sept 2022 – Present

Google Developer Student Club-NUST

- Executive- Web Engineering Team
- Built UI components in React.js in EdTech websites

ACM

Sept 2022 – Present

Association for Computing Machinery-NUST

- Executive- Social Media and Marketing Team
- Provided digital marketing on ACM pages on social media
